If you are having trouble completing the Stage Management Form, the following could be useful.

- You will need to clearly complete:
  - School & Name of Group
  - Item Name
  - Number of Performers
  - Track Time (Total Track Length)

- Once this is completed you will need to circle the answers to the questions relating to Stage and Prop Information

**Lighting**

As with last year, the lighting desk will be set in the lounge area of the theatre. You are reminded that the **Stage Management Form is due no later than Wednesday 10th August.** By not submitting a Stage Management Form by this date means only basic lighting will be available on the day.

A staff member will be able to sit with the technician and talk through lighting requirements during your rehearsal time. Please note this is for fine tuning **only** not arranging all your lighting detail.

Below is a list of the lighting and effects available this year.

- **Ground Rows** – lights on the bottom of the cyclorama that shine lights up onto the cyclorama; colours available *hot pink, amber and mauve*

- **Cyclorama** - White screen at the back of the stage that can change to be coloured, colours available *red, blue, green, yellow, amber, magenta, cyan, purple*

- **Random Chase** (moving coloured lights chasing around the stage and/or rotating on the cyclorama)
- **Break Up Gobos Coloured** – patterns of coloured light created by a stencil that can be shone either onto stage or cyclorama choices below

![Gobo patterns](image)

- Lighting to form shadows
- Robotic lights to light up specific areas of the stage
- Mirror Ball
- Strobe Lighting
- Haze – used to create light beams or diffuse light

**PLEASE NOTE NO FOLLOW SPOT OR PROJECTIONS ARE AVAILABLE**

- **Maximum Lighting Cues**: 10 for Secondary; 8 for Primary. A repeat of a cue counts as one.

- **Description of Lighting/State Colour**: description of colour is important. E.g. 'like an ocean', 'stars in the sky'.

**Remember there is only 15 minutes allocated for rehearsal, by not submitting a stage management form by Wednesday 10th August 2016 means that only basic lighting is available on the night.**
